

Since I have been on the "NJ do not call list" I have not been bothered by those annoying telemarketers. I have a right to say who calls me and when.

The Federal do not call list did not seem to make a difference. I continued to receive annoying calls. Even my answering machine was loaded with them.

People should be asked to sign up for telemarketing and surveys if they want to participate. I'm sure there are people out there who like to talk to annoying operators who must get all the info in even if you tell them from the start that you are not interested.
